

## HELLO!

We are more than your normal coffee shop we are a part of your everyday lives. Our passion and love of home-cooked meal is portrayed in every dish we serve.

Care and choose from our hearty and healthy all day brunch, sexy salads or good old fashioned meals. We taste of Persia to have excellent tasting food with a touch of Persia's culture. Our menu is composed of traditional Persian dishes but to match the trends, we have freshly baked pastries which will put a smile on your face.

## OUR STORY

I started my first coffee shop in 2004 in the Shropshire Garden Suburb after deciding to give up my 9 to 5 job in the city. With no catering experience, the only way I knew how to run a business was NOT to look at it as a business. I treated it like my home and all the customers were guests in my home.

After 13 years, I still stand by the same principle as I have not yet learnt the art of running a business but I have learnt the art of being a host. We buy the best fresh ingredients and cook the food I never eat in a restaurant. Everything is freshly cooked on site and served immediately to our guests.

## CATERING SERVICES

Avgan in the testes and purchase of the Silk Road... Persia on a platter.

Reinventing Persian family recipes with subtle and varied flavours for an exotic Persian taste.

With over 10 years of experience, from daily dinners to corporate events and galleries to weddings, we can cater to make a memorable experience for everyone involved.

## OUR CAKES

NO ADDITIVES NO PRESERVATIVES and NO COLOURING is the motto we live by. We also always try to have a gluten free option available and happy to cater for those guests with special dietary requirements.
